

Commercial Fuels

Diesel - On/Off Road

#2 Diesel

Ultra Low Sulfur Diesel (ULSD) and Non-Road Diesel (NRLM)

- Meets or exceeds ASTM D 975 standards

#2 Diesel Supreme

Ultra Low Sulfur Diesel Supreme (ULSD) and Non-Road Diesel (NRLM)

- Contains additives that provide a cetane number booster, injector detergent, fuel stabilization, corrosion inhibitor, and a lubricity improver
- May also contain a cold flow additive to improve the winter handling characteristics of the fuel
- Additives are injected during the loading process to ensure uniform mixing; utilizing an inline blending system to ensure product quality

Winter Diesel

Ultra Low Sulfur Diesel (ULSD) and Non-Road Diesel (NRLM)

- A seasonally blended product containing #1 and #2 diesel fuel. This fuel is designed to lower the cloud point of the fuel, which aids in winter operability.

Biodiesel

Meets All Industry Specifications

- Biodiesel is available in the following blends: B5, B10, B20

Gasoline

We Offer the Highest Quality Fuels for Your Business

Conventional (Ethanol Free)

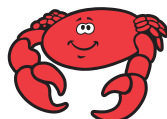

- 91 Octane

Regular (E-10)

- 87 Octane
- 89 Octane
- 93 Octane
